

Car Repair Billing... Made Simple.

Mobile entry and validation
of car repair data with AEI tag
scanning and EMIS integration.

Express Yard is an online and wireless handheld based software system for managing the daily operations of a railcar repair and maintenance facility. Using Express Yard, you can transmit data wirelessly directly from the field, decrease billing turnaround time, boost team coordination, reduce overhead and eliminate costly errors.

Visit us online at www.expressyard.com.
